Public Speaking.

Three distinguished gentlemen of the American Party,

Hon, JOHN S. BRIEN, Hon. John Bell, and HON. NEILL S. BROWN;

Will address the citizens of Nashville on Wednesday night next, preceding election day, at the Market-house.

We have received the August No. of the Nashville Journal of Medicine and Surgery. The high character of this as a scientific Journal, and the ability of its accomplished editors, Profs. Bowling and Eve, of the Nashville University, are a sufficient guaranty of its merits.

There came near being an Irish row at the Catholic burying ground on Sunday evening last. The two men, who were killed by the falling of a election. derrick at the Water Works on Saturday evening, were taken out to be intered. There sprang up a rivalry between the two funeral companies, as to which should be buried first; and there not being tools enough for both companies, the unsuccess party, became offended as the acting sexton, as after a few words came to blows. The intervention of the more peaceably inclined, prevented ar serious injury. The offenders were duly introd ced to the Recorder, and fined, yesterday morning

SAD ACCIDENT -- An interesting little son of J. Knox Walker, Esq , of this city, was killed yesterday, by accidentally falling from his poney. His foot became entangled in the stirrup, and the horse taking fright, ran at full speed and mangled him in a dreadful manner. Commercial and Chance Speculations. The whole world is a lottery, in which all the men and women are continually drawing blanks and prizes. Society would cease to have any excitement-life would have no charms were this not the case; for mankind must have something to hope for, in order to exit. Commerce is based upon this necessity of man's nature; and all kinds of business and trade are purely speculative, because nothing is certain. The establishment of lotteries has grown out of the knowledge of this principle which operates so powerfully upon society, and they will always be sanctioned and supported, because they are truly beneficial to a large majority of the public, who crave excitement in matters of gain, and desire to do so without being subjected to the injuries and loss of time incidental to gaming. They are as strictly commercial as any other business where risks are indulged in-for chance rules every result where investments are made. Hence it is, that Messrs. Swan & Co., of Atlanta, Georgia, who draw a lottery every Saturday, are successful, They receive by mail, ten, five, or two dollars and a half for a whole, haif, or quarter of a ticket, and they send out more than one prize to every ten applications-while the ticket holder, to whom they

The Richmond papers record the death of a young man in that city on Thursday last, whose wedding was appointed for the very night when he was lying cold and stark in the embraces of death. A few days before he was in the prime of health, and the cards of invitation to the marriage feast were sent to a large circle of acquaintances. But the night came and he was shrouded in his weding suit. Who may picture the agony of the young being who was to have gone with him to the sltar, when thus called to the side of his bier, Death, ever appalling to the young, had a treble poignancy for her. At the very hour she coyly dreamed of the bright future, he to whom her young faith to act as Judges and Clerks in the different Wards and Diswas plighted had joined

FEVER AND AGUE. of Eight Months' Standing oured by BER-HAVE'S HOLLAND BITTERS. Michael Kelly, No 117 Seventh, near Grant Street,

"Last July, while running on the river, on a cotton-beat plying between Natchez and New Orleans, I was taken with Fever and Ague. For eight long months I suffered with this dreadful disease. The greater part of this time I was unable to work, and spent at least fifty dollars for different medicines, but four d no permanent relief. Three weeks ago, one of my friends insisted upon my trying BERHAVE'S HOLLAND BITTERS, saying that a cure was guaranteed. After taking it for one week, I must state, I was a cound man. I have been at work now for two weeks, and have had no return of the Chills and Fever whatever,'

BRADSHAW & RUTLAND.

NEW YORK, April 25th, 1848. My position hast year, as Chairman of the Sanitary Committee of this city, brought me constantly in contact with persons as laring from Cholera. Dysentery, &c. Facts coming under my own observation, with reference to the efficacy of your Dysentery Syrup in the diseases, have been confirmed by the testimony of my associates on the committee, and particularly by Allurman De Forest, of the First Ward. So strongly was I impressed with the value of your preparation, I unused is to be sent to the Quarantine, where the Cholera them existed; and it is not a little remarkable that but a single case was reported afterwards.

The Children's Panacea is well known to be most efficacious in all disorders of children from one to five years old. Why should two-thirds of all the saildren both die before they are five years cid, if it were not that the Vermifages and all the other powerful modicines administered to them were not most injurious. Testhing and other discusses of the account summer cause but little approblemation where this is used. The Dybentery Syrup and Children's Palances are worth more than weeds are expense. dren's Panacoa are worth more than words out express, juiyll, MACKENZIN & REGENTIA.
